Our Housing Need – Update 3

February 2012

We have rented a house for all our married life of 19 years. We have always rented and maintained a place that is not ours. We are excited and cannot believe that it is true that we will be able to purchase a house and property sometime soon. You had a great part in this by your prayers and giving!

I just finished a fast of three days asking God for wisdom and peace in the purchase of this house and property. By faith, we will go forward! Praise the Lord! Recently a total of US\$2,800 was given for the house and property. This puts us at a total of US\$60,200 for the purchase. The owner is asking US\$70,000. We still need to raise US\$9,800. Thank you for your prayers! We are putting this need in God's hands! We are excited to see what God is going to do!

By faith, we would like to sign papers during the month of March. We are praying and waiting to see how everything will fall into place.

Since the land we plan to purchase has seven acres, there is plenty of space to build a Bible-distribution center, a print shop for the printing of Gospel tracts, and a prophet's chamber for guest preachers and missionaries. The Bible-distribution center will be a great tool in getting the Bible and Gospel tracts into the hands of the people of Argentina. We still have a goal of distributing one million Gospel tracts a year. There is so much work ahead of us to start many more new churches and see thousands saved and disciplined.

You can be a vital part in partnering with us in prayer for the people of Argentina! Our prayer is that we can count you in as a partner in this urgent project of starting churches all over Argentina.

By God's grace, the ministry here has started 12 new churches since our coming to Argentina. The Bible college has trained and sent out 25 pastors in the last 10 years. Great things are happening!
